

# Modern Living

Home Automation, Paderborn

Project	Refurbished Building
Location	Paderborn, Germany
Use Case	Home Automation
Products	<a href="#">one</a> , <a href="#">loop</a> & <a href="#">one kiosk</a>

In the center of Paderborn, our customer has created a timeless piece of home. In the fully refurbished maisonette apartment he controls his home via iPad. Our viveroo mounts ensure continuous power and data supply with the certified accessories and support the KNX system.

The KNX system consists of sensors, actuators, home servers and control devices that are perfectly matched up with each other. Whether home monitoring, lighting or kitchen appliances, the range of customized solutions for every requirement or budget is almost unlimited.
